Risk warning

An investment in shares carries substantial risk and is suitable only for financially sophisticated investors capable of evaluating the risks and merits of such an investment and who have sufficient resources to bear any loss (including total loss) which may result from the investment. The value of an investment and the income from it can go down as well as up, it may be affected by exchange rate variations and you may not get back the amount invested. Past performance is not necessarily a guide to future performance. The fund invests predominantly in collective investment schemes and hedge funds managed by New Star which may invest in certain smaller and emerging markets which can cause political, economic and market risks. The underlying assets of the New Star Investment Trust may utilise gearing or leverage. The fund may borrow money in order to gear the performance which may cause volatility and risk. The fund may also invest in unlisted securities which may be more difficult to realise than listed securities. There is no guarantee that the market price of shares will fully reflect the net asset value of the fund. Please ensure you refer to your financial adviser to understand the full features and risks of this product before investing. Investment trusts are unregulated and investors in New Star Investment Trust may not have the right to access the Financial Compensation Scheme or the Financial Ombudsman Scheme. The investment trust may also use derivatives and gearing which can increase volatility and risk.
